

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

Mr. R. E. C. Stearns read a memorial sketch of the life and scientific services of the late Col. Ezekiel Jewett, who died at Santa Barbara, California, on the 18th of May, at the age of eighty-six years.

Through inadvertence we omitted to state that the wood-cuts illustrating Prof. Russell's article "Concerning Footprints" in the July number, were kindly loaned by Messrs. Ivison, Blakeman, Taylor, & Co., the publishers of Dana's Manual of Geology, from which the cuts were taken.

Professor E. S. Morse is now in Japan studying the anatomy and development of the Brachiopods. He will be absent from the country until October.

A Manual of the Anatomy of the Invertebrated Animals by Prof. T. H. Huxley will be issued in August, by J. & A. Churchill, London.

SCIENTIFIC SERIALS.¹

AMERICAN JOURNAL OF SCIENCE AND ARTS. — July. Germination of the Genus *Megarrhiza*, by A. Gray. On the Relations of the Geology of Vermont to that of Berkshire, by J. D. Dana. Characters of *Coryphodontidæ*, by O. C. Marsh. Characters of *Odontornithes*, by O. C. Marsh. New and Gigantic Dinosaur, by O. C. Marsh.

THE GEOGRAPHICAL MAGAZINE. — June. The Arctic Expedition, xv. Work of the Auxiliary Sledge Parties. The Seat of War in Asia, Corea, by S. Mossman. The India-Rubber Trees in Brazil, by R. Cross.

THE GEOLOGICAL MAGAZINE. — May. A Visit to the Active Volcano of Oshima, by J. Milne. June. — On the Rocks of Newfoundland, by J. Milne, with Critical Notes by A. Murray. Baron C. von Ettinghausen's Theory of the Development of Vegetation on the Earth, by J. S. Gardner.

QUARTERLY JOURNAL OF MICROSCOPICAL SCIENCE. — July. Résumé of Recent Contributions to our Knowledge of Fresh-Water Rhizopoda, Part IV., by W. Archer. Notes on the Structure of several Forms of Land Planarians, etc., by H. N. Moseley.

ANNALS AND MAGAZINE OF NATURAL HISTORY. — May. Malacological Notes, by R. Garner. On the Final Stages in the Development of the Organs of Flight in the Homomorphic Insecta, by J. Wood-Mason. June. — On the Variability of the Species in the Case of Certain Fishes, by V. Fatio. On *Ascodictyon*, a New Provisional and Anomalous Genus of Palæozoic Fossils, by H. A. Nicholson. On *Rupertia Stabilis*, a New Sessile Foraminifer from the North Atlantic, by G. C. Wallich.

THE QUARTERLY JOURNAL OF CONCHOLOGY. — May. Review of the Genus *Tulotoma*, by A. G. Wetherby.

¹ The articles enumerated under this head will be for the most part selected.
